<p>100% Digital DLP® Chip Providing a Truly Accurate Picture</p> <p>The DLP® chip is reflective and 100% digital. The all-digital chip, with its millions of microscopic mirrors, delivers a precise, lifelike image with vibrant colors.</p>	1.2 DLP® Chip	.98 DLP® Chip	1.2 DLP® Chip
<p>High Resolution and Contrast</p> <p>Achieve contrast ratios of 2000:1 or higher by using DMD chips from Texas Instruments® that support a resolution of 2048 x 1080 pixels. NEC's STARUS digital cinema projectors faithfully reproduce digital cinema and high definition input sources, as well as input sources requiring superior color reproduction and wide gradation.</p>	●	●	●
<p>One-touch Operation and Memory Functions</p> <p>Direct-select buttons for 8 stored projector configurations. World's first memory functions for lens position and lamp output. Simplify display of different aspect ratios through pre-set lens shift position, zoom and focus, while maintaining constant screen brightness.</p>	●	●	●
<p>Built-in Web Server</p> <p>Access and control projectors from any authorized Web browser.</p>	●	●	●
<p>3D Presentation Using a Single Projector</p> <p>Present 3D content from a single projector, eliminating the need for a costly second projector.</p>	●	●	●
<p>Auto Lamp Brightness Control</p> <p>Minimize fluctuations occur during the life of the lamp. The brightness level will not decrease as the lamp is consumed. STARUS projectors optimize lamp performance and ensure the brightest and most uniform image possible for the life of the lamp.</p>	●	●	●

<p>Minimal Maintenance</p> <p>Custom DMD shielding protects the projectors from dust, oil and smoke.</p>	●	●	●
<p>Trouble-free Lamp Replacement</p> <p>Technicians can replace lamps simply from the back of the projector even in a cramped space.</p>	●	●	●
<p>Optional Touch Screen Control</p> <p>Conveniently control the projectors from an optional touch screen.</p>	●	●	●
<p>Compatibility with Most Standard Film Projector Lamps</p> <p>For maximum flexibility, exhibitors are able to use compatible third-party film projector lamps with a lamp adapter available from NEC.</p>	●	●	
<p>Optional Carrying Handles</p> <p>Optional handles for easy delivery and setup.</p>		●	
<p>Ease of Transport</p> <p>Especially important in rental situations, transport STARUS digital cinema projectors without having to remove the lamp bulb from the projectors.</p>		●	●
<p>Compact Size</p> <p>Quickly and easily adapt to every conceivable installation specification inside or outside a projection booth</p>			●
